Response to Amendment

1. Applicant's election without traverse of claims 24-56 (method) in the reply filed on 6-6-06 is acknowledged.

Response to Arguments

2. Applicant's arguments filed 1-25-05 have been fully considered but they are not persuasive.

Applicant argues that the prior art soap bars do not motivate a child to wash for a period of time and therefore the claims are a functional difference from the prior art of record.

The examiner contends and respectfully disagrees because the prior art of record teaches bars with a variety of colors and layers and one skilled in the art would be motivated to assemble the layers and colors as claimed, in the absence a showing to the contrary. With respect to motivating a child to was, the courts held that reason or motivation to modify the reference may often suggest what the inventor has done, but for a different purpose or to solve a different problem. It is not necessary that the prior art suggest the combination to achieve the same advantage or result discovered by applicant. In re Linter, 458 F.2d 1013, 173 USPQ 560 (CCPA 1972) (In re Dillon, 919 F.2d 688, 16 USPQ2d 1897 (Fed. Cir. 1990), cert. denied, 500 U.S. 904 (1991) "it is not necessary in order to establish a prima facie case of obviousness . . . that there be a suggestion or expectation from the prior art that the claimed [invention] will have the same or a similar utility as one newly discovered by applicant," and concluded that here

Art Unit: 1751

a prima facie case was established because "[t]he art provided the motivation to make the claimed compositions in the expectation that they would have similar properties."

Conclusion

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
